

At Sentō, we innovate for you!

Already recognized to have created innovating workshops of Lean training, Sentō do it again and proposes to you a workshop coming directly from Toyota! In fact this Land Cruiser workshop is the same one used by Toyota to train their Lean Leaders! Two versions were designed:

- **Team Members/Team Leaders version:** your employees learn how to make use of Lean in order to reduce the manufacturing costs of their Land Cruiser line;
- **Manager version:** In addition to learning the base of leveling their production line, your managers will have to measure the Industrial Quotient® of their Land Cruiser line and to find how to increase it by improving each of the 14 Management Principles conveyed by the Toyota Way integrated management system.
- See the whole of our workshops in the following pages.

Team « Land Cruiser »
working!

A Sentō's workshop for all your Lean projects!

Recognized since 1996 as a leader in Lean innovation, Sentō proposes to you workshops and/or Lean conferences that meet all your Lean needs:

| Workshops | Type of Workshop | Objectives |
|---|---|--|
|  Land Cruiser I | General view of the Toyota Way approach , its 4 main pillars and 14 management principles | Allows your managers to be initiated to the whole Toyota Way approach and to Sentō's Industrial Quotient® |
|  Land Cruiser II | Participants will learn how to create production flow, Takt Time, the cycle times, Kanban, the 5 why, Andon, Training Within Industry,... | Your employees will see the production costs lowered with each iteration of the game, allowing to associate the adoption of Lean concepts with improvement of competitiveness! |
| Sentō's Industriel Quotient® Diagnostic | This complete diagnosis makes it possible to compare your company to the 14 Management Principles conveyed by the Toyota Way management model | Allows to measure the level of adherence of Lean concepts in the ADN of your company. What's the probability that your organization will be the dominating player of its market? |
| Kaizen Bridge | Workshop addressing the team work, the paradigms, the Consensus, the coaching, the 5 why, ... | Train participants on how to hold a Kaizen workshop, to obtain much with little, challenge, ... |
| SMED Coffee Pot! | Dynamic workshop where one declines SMED methodology ... using a coffee pot! | Train participants to the 4 phases of SMED methodology (quick change over) |

| Workshops | Type of Workshop | Objectives |
|--|--|--|
| Wooden 5S | Participants must utilize 5S methodology in order to improve by 90% the time to assembly a 5S made of wood | Show that the 5S makes it possible to save steps and time |
|  The Wall! | Workshop where the participants learn to measure the efforts, to reduce them and so to improve the productivity | Lead participants to understand that more production is possible with less efforts. The participants will learn Modaps and their application |
|  Lean Airplane | Application of Lean R & D and engineering in the conception of paper planes ! This workshop is inspired by "Lean Product Process Development" used by Toyota | Not to apply Lean in engineering means losing invaluable points of competitiveness. We learn how Toyota applies Lean in engineering. |
|  The Bistro! | The participants learn how to apply Lean in a transactional environment: wastes, process flow, takt time, ... | Demonstrates the universality of Lean application within a non traditional environment to Lean: office, bank, restaurants, ... |

Éric Lucas (Box champion) in full Kaizen Bridge simulation!

Team having succeeded the Wooden 5S assembly!

Lean conferences for all your needs!

Besides the innovative Lean workshops, we offer you a choice of very high quality Lean conferences

| Conference | Type of conference | Objectives |
|---|---|---|
| Business breakfast Toyota Way and Industrial Quotient [®] | Fast initiation to four pillars Toyota Way as well as to its measure: the Industrial Quotient [®] . Some real examples of companies applications | Allows executives to learn quickly about Toyota Way and Sento's Industrial Quotient [®] |
| Half-day Toyota Way and Industrial Quotient [®] (or Lean IQ [®]) | History and evolution of Toyota Way management model, explanation of 4 pillars - 14 management principles, explanation of Sento's Industrial Quotient [®] and its mechanics, relevant examples of applications in industries, videos | Allows all levels of your company to learn in depth about Toyota Way management system |
| One day Toyota Way conference | An international Toyota Way conference given by David Meier or Mike Hoseus, Sento's US partners | Executives of your enterprise will be in the first row to listen to world class Toyota Way lecturers |
| Toyota Way Initiatory Journey | Lean tour at Toyota Camry plant and its supplier as well as conferences plus Toyota Way and Industrial Quotient [®] activities | Allows participants to visit Toyota Way sources and meet Mike Hoseus and David Meier, authors of Toyota Way Books |
